The Starlight Motorcade

You fell a thousand times before
You got to walk across that floor
And see the progress that you made
Was just a starlight motorcade

We started out on Sunday
Though some thought it was a Monday
A little stroll through Heaven's hallowed gates
But there was trouble from the start
'Fore when we tried to play our parts
We created darkness , though the path was straight

With every lifetime comes an end
Avoid the pain , and try to fend
Thus GOD commands all creatures to obey
But people can assign their plight
To their beliefs , in dark and light
As symbols dancing over where it lay

Now the error has been taken
To new heights of 'wareness shaken
By beliefs of 'maged bad and good
We judge our moments in this way
Thrust them aside , deny them place
And darken GOD's own spirit as we - wood

People on the rising tide
Of all creation , lived and died
Catching moonbeams from the shade
And led the starlight motorcade

But there finally comes decision
About the spirit we've been given
To cash it in for symbols or for faith
If it's faith , then love our darkness
Save our moments from that starkness
And if it's symbols , then we worship wraiths

We only just need to remember
Our spirit's made of glowing embers
Moments which we need attending to
When we love , it is expression
Ending hatred's dark repression
Healing lifetimes tarred with karmic glue

Now the motorcade is calling
Angels rising , demons falling
Trumpet sounds from Heaven's distant shore
Follow faith to moments gleaming
Release your symbols from deceiving
And quit the insect wraiths of nevermore

The Insect Wraiths Of Nevermore

I heard a tale some time ago
About how spirit ebbs and flows
About the splendored Heaven's Shore
And the insect wraiths of nevermore

I might remember how it went
With precious starlight Heaven sent
To make us laugh , and run , and play
In whimsical outlandish ways

But caught up in a paradox
Somehow the starlight all gets lost
From moments 'tended as a chore
To the insect wraiths of nevermore

We just got fooled from loving all
And let our sterling 'tention fall
To hatred , sorrow , jives , and dread
And cast the starlight from our heads

We lose our energy in this way
The moments darken as they lay
And starlight drifts like morsel spores
To the insect wraiths of nevermore

The insect wraiths of nevermore
They only live to feed
On precious starlight cast away
From foolish darkened deeds
The insect wraiths of nevermore
They have no will or 'tent
Are angels fallen long ago
Denying starlight sent

Now people finally get the chance
To join the starlight funky dance
Fix all your light to moment's gleam
And join the endless starlight dream

This choice presented no others past
Denied the starlight funky dance
And latched on for the symbol ride
To nevermore, and kingdom jive

Some others choose starlight instead
Now angels guide us as we're led
Away from darkness on the floor
And the insect wraiths of nevermore

The Geisha's Lullabye

Don't cry for the feeling that torments your soul
Time will wash it away
Be open and bright , give your spirit control
Finding peace in forgiving your way

Hush now for the moment , and lay down your head
Don't clutch at some thorn in your heart
Dream sterling tomorrows where splendor is led
Be happy in playing your part

I'll be there for Mondays , for Thursdays as well
Sharing the highs and the lows
And hear all the stories you're needing to tell
Then ponder them deeply and slow

Are we helping each other by growing the truth ?
Nurturing 'emotional waves
To make it so special , so precious to lose
Much better as something to save

It's not about passion , though passion's quite there
Not about proving some fact
It's just about capturing light unawares
Discovering what we might lack

To become so trusting and open inside
Does not mean to become abused
Confronting the demons with nowhere to hide
Can squeeze out their powerful ruse

Negotiate darkness and barter with light
Rhyme may lull you to sleep
Be peaceful and merry in clearing your sight
Fore' warm tender feelings you keep

Now sing and be joyful on fiddle and lute
Tunes come strangely to mind
Though you never heard them , the reason is moot
You know them without even trying

Da Coda I Wrote A

Think I gotta' kinda' reconsider
Somethin' might be a little bit wrong
Was a long time to cover
Stealing lids off another
And renaming them as saucer like gongs

Felt that something else was very peculiar
'Bout the way banter ran around sly
They got tricked symbol crunching
Deflated 'genda hunching
And saddled me with voodoo on the fly

Sometimes I always often rarely ponder
How I ever did get this job
Fixin' holes which are rented
Densin' steam that was vented
Castin' why - o - lets in bring 'em home lobs

And of course you're always askin'
What's the purpose ? , What's the cause ?
And the answers just a cracker box squeeze
Adopt - a - dogma , its genetic
Revolving girlfriends in the craze
To meet conditions no one really needs

Been a funny little sort of a lifetime
Actin' out someone else's desires
Every scene when I was younger
Was created , hatched , and sundered
To make it look like wonder lust inspired

Now I'm cumin' thru her part of the story
Where the promises all blend into haze
And the people , places , actions
Lose their meaning and their track – shuns
Melt together 'to a carnical glaze

So the loose – endz all swerve a purpose
To connect up we – never – had – wonz
Facing facts spurned too often
Concrete hearts begin to soften
Givin' to hope to laughter , love , and endless funz

“ A Story So Far “

Willing to find a chance for more
From an every day vacation , through a prodigal dream
Spun off an exit in Tonopah

Calling back tomorrow , or maybe so it seems

Planning to lose some pocket doubt
Like a mesa top falling , or a do - I - go - down
Calliope fiddle makes a passing stay
At a sonata's waving notes , the rest for a clown

Bundles of feelings in the city of lights
Butterscotch tomorrow with a Sunday masquerade
Taking it as it comes quick
A meandering forever , on its covert way

A Hollywood moon and paper stars
With Johnny Casual pumping , crisp , lean , and tight
Harlequin waltz to a different tune
Down Sunset Boulevard , on a Saturday night

Runaway scenes in a crazy film
A wallopíng much to con - tend

A fanciful boogie of tumbling rock
Too powerful to call pre - tend

Phantoms and starlight cavorting about
In a counter point circumstance twist

Cerveza Mexicalí , mí amigo , gracias
A laughable , quizzical mix

A Calexico card with audio light
Blinking songs of yesteryear , walk to me now
A triple not start in the Don Juan motel
Question truth , de anza door , and hallowed ground

Presented a shattering of common day thought
Coyotes on the prowl , crackling telephone games
Prescribed to us by a Murphy at large
Squeezing through the moment , caustic fibers rearranged

Storm chasing music in mystical swirls
Manifests itself boulderly , a star studded sky
Rehearsed fiestas in agenda del mar
In the forever and the moment , we offer good bye'

Wide angle dreaming from Pelican Point
Orchestrated phantoms , marking time and filling space
Spring breaking visions of Spanish delight
Modeling behavior , for some Nameless Face

Paradise Lost

If its Love , why does it hurt so much ?
If its Love , why is it hard to share ?
If you're Free , how come you're bound in chains ?
Of self possession , esteem and care

A child once with laughing face
And World that's filled with no regrets
When dark commands to bow their heads
To blaring trump – Et of empty dread

“ Give up your face and Laughing Soul “
“ Forget your Peace and Inner Strength “
“ Be wanting what you haven't got “
“ Be searching where you Never Went “

So every Moment's missing dream
Compounds the lie that you've been told
And robs the Magic Legacy
To feed the nightmare you've been sold

“ Come one come all and join the throng ”
“ Promote the cause of cause – less –ness “
“ And press hour case so incomplete “
Of hopeless dreams that won't con – fess

The Inner Light , now bent and shut
Emits a single casting ray
Which probes the darkness of hour souls
Reminding how we've lost Are – Way

With quenchless thirst and endless need
We seek for Love to fill hour void
With Sterling Chances beckoning
We spurn them for sum twisted ploy

So never trust or satisfied
While thinking we have open mind
The endless search for not enough
Con – sumes us 'till The End Of Time

Don't travel down that darkened path
And roam the waste land pale and grim
Don't give up your Spirit Pure
To join the ranks of oblivion

Toll the bells in the tower to roll them home

Passed off double dealing with a widening grin
Toll the bells in the tower to roll him home

Leading me on to Loch Lomond
Light up those fibers with a peal away hitch
Toll the bells in the tower to roll her home

Pickled shot of mustard , dash of lightening

Where that Moment Goes
And when it Says Good Bye' , yeah good bye

And then it goes
A' rolling On Fore' Ever
Did you think that it Might Stay

Maybe one can Never Tell
And Never No about tomorrow
All you Ever Got today

And don't you Ever Stray
Through the shadows of Your Sorrow
They'll devour up Your Way
Filling up sum empt – e wraith

Oh , Just Look what's on your hand

“ Sweet As Honey , Silken As Wine ,
Clear As Water From Silver Tyne “

Could you ever remember once upon a time ?
Once about a far away place ?
When angel's voices filled the air
Weaving life in the gossamer lace

Did you ever recover from that lover's fall ?
Just swept you off your feet
With completely and hopelessly curtain calls
And selective passions sweet

It seems I caught you once before now
As we waltzed around this time
Midst Aaron Neville's velvet tones
Add longing to the rhyme

Viscous sparkle in look away eyes
And tender gazing maps
For always question the doubting world
With their assorted traps

Evermore you need me , and I'll be there
Staid on some rhythm 'till morning
I'm waiting over by the silvertine stair
To drink up your essence all 'ore me

I knew you were like this when we first met
Through agenda playing games
I had to persuade you to give up demands
And convince me to do the same

Missing desperately passionate need
Hungry and dying to taste
Filling the agony in ecstasy's mold
All over surrendering haste

Feelings inside from another one's soul
Transparent motives adore me
Reading each moment the other one stole
Writing gentle intentional stories

Hold me and bring me to desperately sweet
Mingle - ing breathless and hot
Give up your need clinging wet to my sides
Surrender to endlessly want

Evermore you need me , and I'll be there
Staid on some rhythm 'till morning
I'll be over by the silvertine stair
To drink up your essence all 'ore me

Come A' Gatherin' To Take You Home

Being kinda funny on a Monday mornin' night
Tied in ribbons only filled with what – we've – gotz
I was feelin' kinda special , it was feelin' kinda right
And come a' gatherin' to take you home

Tryin' hard to figure in now what's this shape
Plastered all in colors from all over your soul
Now separate the shadows that are veiled and draped
Or they'll come a' gatherin' to take you home

Comin' on so silken and so crazy face
They rob the moment coffers taken unawares

Senorita

Senorita , hold me near
Whisper passion in my ear
All your lace and crimson flowers
That were lost but not forgotten

I still hear the court yard bells
Laughing fountains , wishing wells
Spanish dreams Forever Romanced
And Simply Lost along The Way

He tried to earn a minstrel wage
Played his heart out on the stage
Singing songs about The Spirit
And a Place called Shinning Dome

It came to pass , she heard him play
Many Lifetimes crossed Their Wayz
Her Love was Sweetly Glowing
Like The Fire , in his Eyez

If U could have a Moment
It would be when they first met
People swear that they heard singing
But the singers all had left
If you could have a moment
Maye – Be hold it in You're Hand
U could make it Last Fore' Ever
Maybe finally understand

Gentle sweetness , smiling l's
Muffled thunder , velvet skyz
Quiet Words are but a token
For That Storm on The Horizon

She gave pleasure , strength and peace
All any man could Ever Need
But The Passion flared , 'till it con - sum - ed him
And he caught The Wandering Eye

He struggled with it night and day
All the goodness could Not Persuade
The Passion Flared 'till it had E - ten
Two the bought -tombe of his sole

The goodness begged Four Hymn Too Staye
The passion blind - lee turned A' Way
Her Falling Tiers and Gen - Tel cry - Ang
Tore the heart out from his chest

If Eye Could Have a Moment
Fore' it Ever Got a' way
I would give mye - life two cap - ture
The one that led mi a - stray
If I could have a moment
That was Pure , and Clean , and True
Eye Will never love A - nuther
The Way that Eye Love U

Senorita , hear this song
Hold it to you when I'm gone
Know your love is not forgotten
Only Lost along the way

Senorita , Here this song
Holed – ET Two U wind Eye'm Gond
No you're love is not four got – ten
Simply lost along the way

Zen Stepping Stones

I might once vaguely remember
From some deep and farthest slumber
Of a moment when content was clean
But in the 'morrow when I waken
Then realize I was mistaken
And rise alone to share an empty dream

We create with our intentions
All our paths with their directions
Shaping feeling felt and thoughtful think
Then to walk on paths deceiving
Not to know we end up feeding
Sallow eyes still watching while we blink

In that dream were other phantoms
Walking stiffly to some anthem
Saluting credit given for the done
In the end they wind up missing
All the real things they were wishing
Defile the tree and pay back what they've won

It got colder here , for twilight when it came
Here's my shoulder dear , don't cry about the game
If you're asking why , it got to be this way
Now it's coming bye , with ghoulish glee to say ---

“ Don't you want to make it matter ? “
“ Who gets shamed and who gets flattered ? “
“ Who gets praised for keeping com - mon guhd ? “
Com - mon guhd is blinded vision
Binding spirit to a prison
Swerving life for living as ehit would

Casting self in through the darkness
Much too blind to see the starkness
Of the folly spun from patterned ways
Captured by our own desires
Endless loops to be rewired
Circuits melt into a darmel glaze

So it goes way past believing
Caught by timeless demons seething
Bloated off our starlight left aside
If we could , just for a second
By aware of what we beckon
We might avoid those shadows as they lie

Questa Theme Song

If you for sake You're Time
For an every day way
U Will never catch The feeling
It just slips away

A Mosaic Design
The Path's already been laid
Now U own - lee have to walk it
'Till future History fades

Then if U catch the light
Now Brilliant Shines the path
And it feels Just Like forever
When the moment can last

But if you darken your sight
And let You're Energy crash
You Will feed The Timeless Demons
And They'll devour Your Path

Jump off A Moment , Spark - El - Ang Light
Relive Tomorrow , on - two - go - sight
Hang on forever , Destiny's Dream
Indigo ver - a - quill streams

Now take up Your Hand
See how The Cards Unfold
You may never no What's Dealing
And Why The Store - Eeeze Tolled

Across The Parable Fan
It reveals Your Phace
Never mindz inside you're pockets
Making blist – o – gram paced

If U Cast Down Your Hand
And let the cards Lie Free
U Will glow from you're endeavors
And glimpse Eternity

A Vision Endless Band
Rapture Sterling Heart
Delusion colors come a' streaming
Braiding up All Partz

Cryz - Wyck - Eeeed U 'Round The Moment

Yonder yore , tender score replent
 With philly gumbo
Pearly tyne , tinsel sign descent
 Not unawares
Pour pair - ri , angel's glee lament
 For mumbo jumbo
Winkle lo's , archen bows cement
 The silver stair

I don't real - e understand
The shway it went last night
Wrapped around your corset bound
With ecstasy and light
You with passion un - full filled
Tempting me again
Ever pleasing , 'gasmic teasing
Jhan - zi lusting bendz

See you when the room is full
Of bouncing honey haze
Hold me while the jazz winds blow
Your carnal astral glaze
Feel you in some other sense
The uni - verse is full
Corporeal illusion dance
Intent's exacting pull

Ribbon folds of quartyl bold compressed
Mosaic empty
Karmic law , co - laytion slaw bye' gress
Then in be - tweens
Starlight bound with lost and foundz add rest
K - otic tempe
Fine lee filled , pure echo thrilled at best
Now out of seems

We had a little dark de - tale
Of tarnished funnel chore
And satisfy creation's lust
De - feating structure whores
Miss - tortion , flux , and neutral fields
Gave eye sing to the bowl
Re - swerving tray - tour ungel tarts
Took par - shalls from the whole

Could it be another round
In star - e - scopic lens ?
Transforming paste and battle chased
With headless nazgul sense
Portal paths converging skize
'Fore scep - ter turquoise gleam
Allies' prance , with franklin's spire
E - hex - trick fountain streams

We took our Weekend Rain Check - Out , And cashed it in Fore' Goodz
Bending Time in Terra Cotta Land
Then we heard that Lonely Bugle Far Off Playing
Parting Strains across the desert sandz

It's just like southwest stoneware , with a california glaze
When This Entity comes Dancing Inside
Trading knowledge , need , and pleasure fore' your Tiny Bitz of Starlight
Momentz shared as payment for the ride

There really kind of quite here in Button Down Town
When the Fire Flies have buzzed themselves to bed
At that fun - e time of night , the Other Kind is Taking Over
And cackles Ghoulis Banter from The Grid

Hey wherz My Margarita , and that Magic Tile Fountain
Dancing bright and heavy under Yellow Sun

The Wanna - Be Game

Swirling for E - ons of creation lust
Fountains of consciousness spawn
Endlessly filling the ravenous need
Eternity's sexual spiritual deeds

GOD'S all creation creating GOD'S self
Energy patterns of light
Some of those patterns have way to reflect
Mosaic existence of self introspect

Reflection of self on eternity's face
Delusional imagine scenes
Cascading back on the patterns in frames
Moments of playing the wanna - be game

Bounded collections of cast away self
From creation's infinite grid
Bends light into splinters of prismatic beams
Illusions of life as attentional dreams

Light into color , illusions of self
Moments surreally portray
Reflection besides the creator's intent
Of shaping creation for which it was sent

Wanna - be's shape fractured colors instead
Attention preserving the gleam
Distracted by all of the sparkle and shine
Forget their true self as creation defined

GOD forgets GOD as in self forgets self
Conscious light scatters around
Raptured attention in corporeal moulds
Blending the colors for wanna - be souls

Attention is both whole creation and part
Colors cast off of pure light
Happens an instant where all moments end
Parts create whole with the gleams they attend

Re - reflection of self , GOD turns back into GOD
Orgasmic enlightened embrace
Beings account for all light they received
Be - dazzled illusions from dreams they believed

Splintering light into frequency bands
Imagining one is alive
Not every bit is attentively placed
Wanna - be's end with an incomplete face

But every part needs to re - create whole
Drawing on self cast away
Incomplete face from the consciousness lost
Reveals a balance to make up the cost

So being attention exists for a while
Gathering colors as moments pass by
Then incomplete face has to create all back
And forfeits attention , the wanna - be track

Wanna - be's live off the rapture of light
Attending to create their souls
Attention is self for the reflective ones
Can finance creation as colors had done

The creator creates for creation itself
Absolute , perfect , complete
Reflecting itself uses way much more light
Attention can make up for all being plights

Create more creation the wanna - be way
Evermore sexual spiritual self
Increasing boundary's attentional span
Evolving consciousness by GOD'S own hand

Being awareness recycles , and then
There comes a point in a wanna - be's dream
They learn to capture all frequencies bent
Totality spectrum exactly as sent

Singular beings defining themselves
As patterns of unbroken light
Fragments eternal assembled complete
Creates creation angelically sweet

Create creation as perfect complete
Greatest command GOD has given to GOD
Wanna - be's honoring such a decree
Have gathered salvation , and therefore are free

Creation eternal in patterns of light
Clearest reflection of consciousness whole
Beings who manage to generate this
May keep their attention forever in bliss

Keep the awareness of singular self
Travel the pathways of infinite light
Beings attending to heaven this way
Have pattern pure light for their wanna - be play
